Afghanistan's Trust and Stability Current

In the name of Allah, the Most Merciful, the Most Compassionate

Press Release of the First Congress of the Trust and Stability Current of Afghanistan

The first congress of the Trust and Stability Current of Afghanistan was held on September 21-22, 2024, in Hamburg, Germany, corresponding to the 31st of Sunbula and 1st of Mizan 1403 (Afghan Calendar).

The „Trust and Stability Current of Afghanistan “, composed of neutral and committed Afghan figures, aims to realistically observe the situation in Afghanistan with a people-centered approach, while also taking regional and international events into account. By striving to provide a scientific and inclusive analysis of the past and present challenges in Afghanistan, it creates a foundation of trust and stability in the country.

The first congress of the current emphasized rejecting all forms of exclusionary policies by underlining the necessity of broad perspectives and learning from political and historical mistakes. It reiterated the current's firm resolve to engage in a joint dialogue with all political parties and social movements in the country to solve Afghanistan's political and social issues.

At this congress, Mr. Mohammad Asif ZAIFI was unanimously elected by the participants as the Vice Chairman of the Trust and Stability Current of Afghanistan for a five-year term. The ratification of the constitution, the code of conduct, and the objectives and policies of the current were among the important outcomes of this congress.

A significant number of figures concerned with Afghanistan from different countries participated in the congress.

It is worth mentioning that the Trust and Stability Current of Afghanistan had previously held two preliminary meetings on January, 2023 (Jaddi 1402), in Frankfurt, and on September, 2023 (Sunbola 1403), in Chemnitz, Germany.
